

## **Technology Workshop on Potable Water Project at Colombo – Sri Lanka**

Section I	Water & Water quality	1 - 5
Section II	Types of Bottled water	6 - 12
Section III	Different standards of Bottled water / Drinking water and regulating authority	13 - 21
Section IV	Microbiological Aspects of Bottled water	22 - 31
Section V	Technology of Mineral Water Processing	32 - 42
Section VI	Good Manufacturing, Practices, and Model and Code	43 - 58
Section VI - A	I.B.W.A. Model Bottled Water regulation	59 - 70
Section VII	Hazard Analysis Critical Point (HACCP)	71 - 82
Potable Mineral Water Project		83 - 84
Raw Water Storage		85
Water Treatment Section		86 – 104
Water Filling i.e. Container rinsing, filling, capping & sealing section		105 – 121
Quality Control & Assurance Laboratory Equipment Section		122 – 123
Pet Bottles manufacturing Section		124- 125
