

C O N T E N T S

	<u>P a g e</u>
<u>CHAPTER 1</u>	
1.1 Seasoning	01
1.2 Decay Requirements	01
1.3 Composition of wood	02
<u>CHAPTER 2</u>	
2.1 Characteristics of wood preservative	02
2.2 Preservative Oil	03
<u>CHAPTER 3</u>	
3.1 Advantages of Aqueous solutions	03
3.2 Disadvantages	03
<u>CHAPTER 4</u>	
4.1 Principal water soluble preservatives now on the market.	04
4.2 Chemicals dissolved in oil and Non-aqueous solvents.	05
<u>CHAPTER 5</u>	
5.1 Choice of Preservatives	05
5.2 Methods of applying wood preservatives.	05
<u>CHAPTER 6</u>	
6.1 Impregnation Treatment	06
6.2 Open Tank Process	07
6.3 Full Cell Process	07
6.4 Empty Cell Process	07
6.5 Sap Replacement Process	08
<u>CHAPTER 7</u>	
7.1 Boron Treatment	08
7.2 Blue Stain	08
7.3 Stain Control	10
<u>CHAPTER 8</u>	
8.1 Killing Concentrations of various Chemicals to the Fungus.	12
